2021

## THE STORY

### 01 MISSION

I had a lot of people who I've met through basketball that had a great value of impact and helped me change my life. My goal is help young men grow a foundation, and a sense of community in life, while also developing their skills in basketball.

### 02 ASPIRATIONS

My ultimate goal is to be a head coach in the NCAA or internationally.

### 03 LEADERSHIP

I've helped support and develop 5 players reach their ultimate goal of playing in the NBA and several others of playing professionally.

### 04 CULTURAL IMPACT

Built a sense of community within lockerroom with players. A place where they know they can always come back to in an era where players change establishments so much they, don't feel attached anywhere.
