THE STORY

01 MISSION

Help as many people as possible, nobody cares how much you know until they know how much you care, help people realize their own greatness and achieve things they could only dream of.

02 ASPIRATIONS

Becoming entrenched at Stanford or known as the go-to expert on high academic basketball. Also be a head coach one day.

03 LEADERSHIP

Youth, HS, and college aged players as well as beyond into their young adulthood.

04 CULTURAL IMPACT

I have built meaningful relationships with lots of players and coaches. But also, my role with the Jewish Coaches Association is also directly helping so many people connect to their culture
